2 DAY AGENDA

1. Introduction to the Power BI Platform
2. Extracting and Transforming Data Using Power Query and Power BI Desktop
3. Modeling Data for Analysis using Power Pivot and Power BI Desktop
4. Extending Power BI Datasets to Support Time Intelligence
5. Designing and Publishing Reports using Power BI Desktop
6. Designing and Deploying Power BI Dashboards
7. Integrating Power BI with Excel 2016 and Excel Online
8. The Futures of Power BI - What's Coming Next

Power BI User Group

As a member of PBIUG, you will:

Learn

PBIUG is your #1 resource for user-led Power BI instruction. Get up to speed on essential Power BI tools such as Power Query, Power Pivot and Power BI Desktop. Ask technical questions and share best practices virtually via an online forum.

Connect

PBIUG is the primary vehicle for connecting and networking with your Power BI peers. Rated as the primary benefit of belonging to a User Group, PBIUG makes it easy for you to find users in the same role, industry or with experience to help you advance your use of Power BI.

Share

PBIUG allows you to share your expertise with other Power BI users to 'pay it forward' to those new to the product or looking to enhance their skills in a certain area.
